NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

With Easter coming Sunday and the kids out of school all of this week, we hope that local citizens do not forget to take time to vote in both the city and school elections Saturday.

While the city elections are not contested this year, we still urge everyone to take the trouble to cast a ballot. If for no other reason this should be done as a vote of confidence in those seeking to represent you on the city council.

With seven men seeking the three places on the school board it is very important that all qualified voters make their choices known. With the influence being placed on public school education at the state level it is of most importance that we have good strong representatives on our local school board.

Regardless of who is on the board or what the state does, education is going to cost more and more each year and we must have faith in those who are serving us as trustees.

We also would urge that you do your neighbors who are holding the elections a favor by voting early.

We talked to Bill Rountree, City Superintendent, the other day about what he was finding out about the new requirement for the City to go to a sanitary landfill in place of burning our trash and garbage. With the deadline of July 1 fast approaching, Bill says that he is not getting much encouragement in any hope of an extension of time.

Bill attended a Refuse Disposal Workshop in Austin this past week that was sponsored by the Texas Municipal League. There seemed to be a whole lot more questions than answers at the meeting.

But what it all seems to boil down to is that the City can just get ready to spend \$20,000 to \$30,000 and start covering up the garbage.

The problem here of course is where to get the money for the original investment plus the added operating expense.

We would assume that the garbage collecting fee will have to be raised and some type of permit fee designed to take care of those who haul their own waste to the dump grounds—whether they live in the city or not.

We can foresee a real problem of people dumping trash out in the country to avoid such a fee and the enforcement angle of this will also increase costs both from the city angle and the county's.

This whole matter would not be so bad if we really had a problem of air pollution but really this is only a minor trouble in West Texas. There are so many other things that the City could spend their money for that it seems a shame. That is if they had the money to spend.

We join the whole world in mourning the death of former President Eisenhower. While some may question how great a president "Ike" was, none have ever questioned the fact that this man was a great American.

While he was a great general and a good president he was above all else a true gentleman and a devoted patriot of his beloved country.

Even in his last days here he displayed the strength that made him a leader of men and an inspiration to all.

He will be missed by his country and by free men everywhere.

We notice that the DPS is adding five more helicopters to its present force of two for rescue and emergency service.

If Rep. Bill Heatly of Paducah got upset because the DPS picked up a few speeders with the two units we can only imagine how he is going to react to seven of these copters scattered across the state.

For some reason Mr. Heatly does not seem to think that it is cricket to catch law violators from the air.

One of the boys put a sack over the end of the pipe and Ricardo lifted one end to force the rabbit into the sack. Police Chief Bryan Wasson, who investigated the accident, said the pipe came in contact with an overhead utility wire. The pipe was some 30 feet long and 4 inches in diameter, he said. The accident happened about 7 p.m.

Mr. and Mrs. Villarreal carried their son to the hospital.

Services were held at 2 p.m. Wednesday in the Baptist Mission, where he was a member.

Rev. David Campos of Stamford, pastor, officiated. Burial was in Hamlin East Cemetery.

Connally Ford to Show New Small Car, Maverick, Apr. 17

Connally Ford Sales in Hamlin will introduce the long heralded 1970 Maverick, new small car from Ford Division, on Thursday, April 17.

This \$1,995 car is a two-door sedan of modified fast-back design with a hint of an air spoiler or "ducktail" at the rear. Designed to carry a family of four with adequate luggage, it is powered by a six-cylinder engine in either of two sizes, 170 or 200 cubic inch displacement. In normal city-suburban driving, Maverick can be expected to deliver 22½ miles per gallon of gasoline.

John Naughton, Ford Motor Company vice president and Ford Division general manager, calls Maverick "the greatest automotive value ever offered in terms of price, upkeep and features included at no extra cost."

Planned to be economical in purchase price, operating cost and maintenance, Maverick offers a longer, lower, wider body than the principal import, yet turns in a tighter radius for easy handling and parking.

Transmission choice includes the fully synchronized three-speed manual, the three-speed automatic with an optional shift-for-yourself feature, and, for the first time, a new semi-automatic transmission. Cheaper than the automatic and clutchless, it permits a change of gears with a single movement of the hand lever.

"Maverick will live up to its name in being a unique independent kind of car," said Charles Connally.

"It's bigger and roomier than the imports, but quicker and lighter than the American compacts. Even some of the color names carry out the car's individualistic character."

John Naughton, Ford Motor Company vice president and Ford Division general manager, stands with the 1970 Maverick, Ford's answer to the booming imported economy car market and the division's first all new car since the mighty Mustang. Maverick averages 22½ miles per gallon from its peppy six-cylinder engine.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(March 21, 1924)

Since before the beginning of the present school term, it has been known that Supt. H.D. Neff would not accept further work as a school man in Hamlin, but not till this week did the realization that he is really leaving our city, become fully felt.

Mr. Neff has been chosen as the head of the Haskell schools and that means that his services here will end with the close of the present year.

On Wednesday and Thursday the West Texas Utilities Co. will hold a demonstration electric cooking school, at their office downtown.

Miss Mildred D. Hickman and Mr. Louis Hoffmaster will show how to cook the "1924" way.

The voters in the City Election will find the following names on the ballot, Tuesday, April the 8th. There is one Mayor, three Aldermen and one City Marshal to elect.

The Woman's Literary Club held open house to a number of invited guests on Saturday afternoon, in the parlors and dining room of the Morgan Hotel.

TWENTY YEARS AGO
(March 18, 1949)

Mayor Holly Toler was instructed by official action of the Hamlin City Council to request early approval of a federal building for Hamlin, it was voted in the Tuesday night meeting of the body.

It was pointed out that Hamlin likely is the largest town in this congressional district without adequate post office facilities, and the mayor was instructed to write letters to Congressman Omar Burleson and the post office department to urge early construction of a suitable building here.

Trackmen from Hamlin High will go to Brady Saturday to participate in an all-day invitational track and field meet, Coach Burditt said Thursday.

Those slated to go are: Asa Goodgame, Tommy Lathem, Seth Adams, W. T. Stapler, John Holland, Joe Allen Dean, Joe Ford, Donald Green, Ronald Armstrong, Don Rowland, Donald Young and Thee Hill.

C.W. Gold was elected commander of the Hamlin Post of Veterans of Foreign Wars in the annual election conducted Wednesday evening. Gold will succeed Clyde Huff, who has served during the past year.

Mrs. Jesse Burditt was hostess to members of the Beta Theta chapter of Beta Sigma Phi sorority in her home last Thursday.

Those attending were Mrs. Clifford Reynolds Jr., Mrs. G. Austin Poe, Mrs. George Poe, Mrs. Perry Sparks, Mrs. Joe Douglas, Mrs. Stanley Carmichael, Mrs. W. T. Johnson, Mrs. Green and Miss Billie Katherine Lancaster.

TEN YEARS AGO

Neinda Philosopher Finds A Great Idea He Thinks In New Gadget City People Are Using

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has an odd but typical idea this week.

Dear editor:
I found a newspaper wedged in the back door to keep it shut. I've been meaning to get around to fixing that latch and will as soon as the Paris peace talks are over, and pulled it out and propped the door shut with the brick I've been using for years and got out of ear shot immediately read an article that gave me an idea.

According to it, life in many big cities has become dangerous. It's awful. People can't walk the streets at night, parks are useless even during the day unless there's a cop every 15 or 20 feet, houses are being broken into regularly.

In fact, it's got so bad that city people are going to great extremes to stay safe in their homes.

Some people are putting three locks to the door, double barring windows, keeping floodlights on all night, buying extra watch dogs, installing electric-eye beams to set off alarms when a prowler shows up, carrying mace in their purses, etc.

But the gadget that set me to thinking is an inflatable dummy, for use when you're driving alone in your car.

You blow it up, it looks like a big, husky man, and you put it on the front seat next

to you. This is supposed to scare off a highwayman or thug hunting for some one driving alone.

I wish you'd find out where I can buy one. I know the stores in Hamlin don't stock them, there's no market for them in a civilized town like this, but I'd like to get hold of one if the price isn't too high.

What I want it for is to blow up and set on my tractor seat, its hands on the steering wheel, with the tractor parked on the far side of the field, away from the house.

Then I'm going to get in a comfortable position some place and read. A glance from the house will lead one to believe I'm on my tractor and hard at work, and other people can attend to their own business.

Yours faithfully,
J. A.

16.6 Million Visit State In 1968, Highway Dept. Survey Reveals

The Texas Highway Department's authoritative survey of the record-breaking Texas visitor industry for 1968 was released today.

The report showed out-of-State visitors arriving by automobile outnumbered Texans by half during the year. The 16.6 million automobile visitors poured \$1 billion into the State's economy.

The survey is prepared annually by the Highway Department based on information gathered from questionnaires completed by visitors who were assisted by the Department's Tourist Information Centers. In addition, regularly scheduled visual traffic counts are conducted by Highway Department personnel.

A highlight of the survey is the 9.1 per cent increase in out-of-State visitors by auto-

mobile and a 25.8 per cent increase in spending while in Texas.

The survey also includes estimates gathered by the Texas Tourist Council, representing the private sector of the travel industry in Texas. The Council estimated that another 5.9 million visitors arrived by commercial carriers — planes, trains or buses — spending an additional \$467.5 million in the State.

Highlights of the survey were released in February. The full report in brochure form is available from the Texas Highway Department, Travel and Information Division, Austin, Texas 78701.

More than 1500 Peace Corps Volunteers are serving in programs to increase food production, according to Director Jack Vaughn.

EASTER
DAY OF TRIUMPH

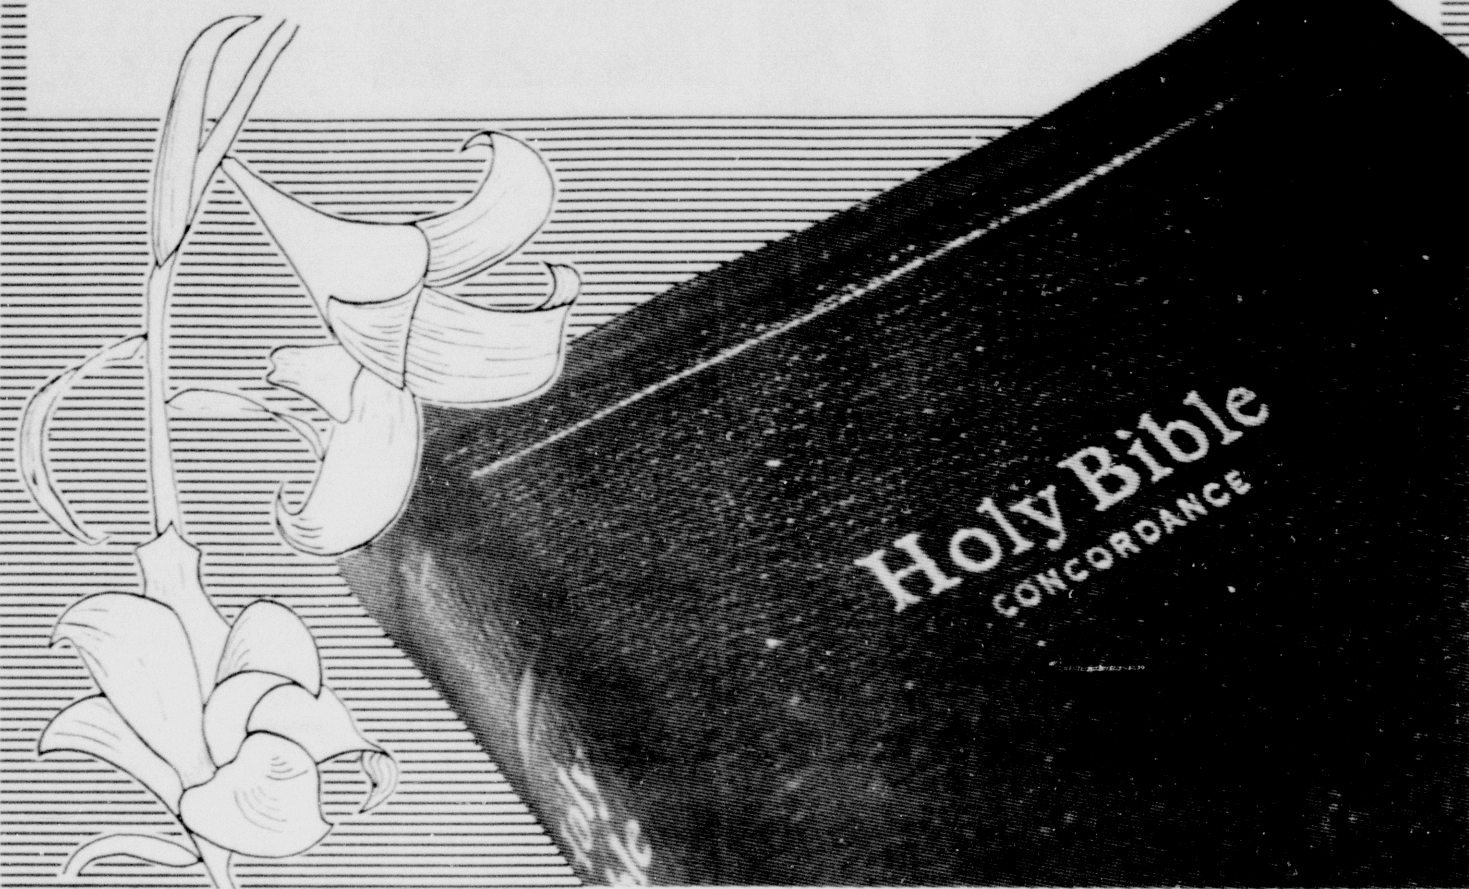

"He is not here: for he is risen, as he said."

Thus, on the third day our Lord rose and conquered death, fulfilling his promise.

There are many other promises of wonderful things that our Lord has made to us.

These are given to us in the Holy Bible. Enter his house this week, on the day set aside for celebrating his triumph, and hear the full story of this great victory.

Make this a new beginning in your life too.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

By MRS R M BARR

Our weather is acting up again, no rain just drizzle.

The M. E. Herrons visited in Dublin several days ago with their daughter's family.

We drove by Aunt Mary Jones in Merkel last Saturday and chatted for a little while. She is doing pretty good but still misses every one here. She and Uncle Bobby lived here for many years before his death.

Mrs. F. E. Meek is in Simmons Memorial Hospital in Sweetwater but is improving slowly.

Our sympathy to the family of Oran Gann Sr. who died last Wednesday. He was the brother of our Gladys Williams and Jack Gann. Several of our local people attended the funeral in Rotan.
